Schedule of non-household charges

Introduction

We are mua Water, the independent water and wastewater services company operating in your area. We own and operate water, electricity and gas networks nationwide.

This document explains your water and wastewater charges from 1 April 2025 until 31 March 2026. These charges apply to **non-households** in areas we serve, where the bulk services come from the following incumbent water companies:

- Affinity Water
- Anglian Water
- Northumbrian Water
- Severn Trent Water
- Thames Water
- United Utilities Water

If you are a new non-household customer, we're delighted to welcome you to our growing base of water customers, and we look forward to bringing you the benefits and fresh approach that an independent operator provides.

The Scheme is produced with reference to the [Wholesale charging rules issued by the Office for Water Regulation \(Ofwat\) in October 2021](#).

Our schedule of charges at the end of the document sets out the areas where the charges apply.

About our non-household charges

As a mua Water customer, you will not pay any more for your water than you would if you were being supplied by your local water and sewerage provider. We have different charges depending on the area where your non-household premises is located, mirroring the charges you would pay with the local suppliers.

All of our customers are metered, which means all of our charges are based on the volume that your premises uses. All new properties in England are charged in this way. Our charges are structured as follows:

- Clean water – we charge for the costs of supplying clean drinking water to your property. We base this on the volume of water your premises uses, plus a fixed charge covering the cost of billing, reading the meter and maintaining the meter.
- Wastewater – we charge for the costs of removing, treating and/or disposing of the used water from your property. This is also based on the volume of water your property uses. For most customers, we assume that the volume of 'water in' is the same as the volume of 'water out', meaning 100% of the water you use will be returned to the public sewer. We apply standing charges for foul sewage, highway drainage and surface water drainage.

About the meter

The water meter will normally be situated in the pavement outside the property boundary.

If you suspect your meter is faulty you can contact us on 0800 011 4193 to ask for a meter test. If the meter is confirmed to be faulty, we will replace the meter for you at no cost. We will also adjust your charges from the point when the meter was known to have become faulty or if this is not known, from the last but one bill, or if we think the consumption is not likely to be accurate and estimate based on reliable records of your past consumption.

Schedule of non-household charges

If the test finds that the meter is operating within statutory tolerance limits, we will charge you the cost of the test, replacing the meter and our administration costs. The standards are set out in the Measuring Equipment (Cold-water Meters) Regulations 1988. If you are not happy with the outcome of a meter test, you can ask us to refer the dispute to an independent arbiter.

Commercial and mixed-use premises

If you are a domestic customer, this charges statement does not apply to you.

Charges may be made by agreement by our commercial retail partner, rather than by this Charges Scheme, and are subject to approval by Ofwat and Ofwat's customer protection code of practice.

Mixed use premises are used partly as a person's home and partly for business purposes and receive a single supply of water.

If the premises are used primarily as a business, then your retail provider's tariffs will apply to you as if the whole of the premises was non-domestic.

VAT

We will apply VAT to our charges where we are legally required to do so in accordance with prevailing HMRC legislation.

Contacting us

If you want to speak to us about your bills, you can call us on 0333 009 5219 or billing@muawater.co.uk. Our team is available Monday to Friday between 8am and 7pm, and on Saturdays between 8am and 1pm.

For all other enquiries, you can reach our team on 0800 011 4193 or by email at support@muagroup.co.uk.

If you have a complaint

We want to deliver great service to our customers and put things right as quickly as possible if we get it wrong. If we haven't provided the high quality of service you expect, please let us know.

If you've got a complaint about billing, please contact us by phone or email at:

- 0333 009 5219
- billing@muawater.co.uk

If you've got a complaint about anything else, you can get in touch with us by phone or email at:

- 0800 011 4193
- support@muagroup.co.uk

We will respond to any complaints within five working days. Our customer code of practice contains more details about how we address complaints. It's available on our website or you can call us if you want us to send it to you.

If we have fully reviewed your complaint and you are still not satisfied, you can ask the Consumer Council for Water (CCW) to review your case. The CCW is an independent organisation, which helps consumers resolve complaints against water and sewerage companies in England and Wales:

Schedule of non-household charges

- [ccw.org.uk](https://www.ccw.org.uk)
- enquiries@ccwater.org.uk
- 0300 034 2222 (England) or 0300 034 3333 (Wales)

If your complaint remains unresolved after CCW has fully reviewed it, you may be eligible to refer your complaint to the Water Industry Redress Scheme (WATRS) for an independent binding decision:

- [watrs.org](https://www.watrs.org)
- info@watrs.org
- 020 7520 3801

Our regulators

mua Water is a regulated company operating in England and Wales. Our regulators are:

- Ofwat
- Consumer Council for Water (CCW)
- Defra
- Drinking Water Inspectorate
- Environment Agency

Ofwat regulates our charges, which must be no more than you would pay if you were served by the local provider. We also send our draft charges statements to CCW for review each year.

We have legal obligations to issue a Charging Scheme each year, and the legislation also sets out how we can charge our customers.

Any disputes will be handled in accordance with the Market Codes.
